

Kombi-LWEU-RHT-CO2-TVOC-DP

A good indoor climate increases comfort, maintains health and secures the value of the property. Clean and adequate indoor air increases the satisfaction of building users and the productivity of work. For this purpose we have designed Kombi-LWEU-RHT-CO2-TVOC-DP, a wireless and economical multi-sensor indoor air quality transmitter.

Kombi-LWEU measures temperature, humidity, carbon dioxide (CO₂) concentration, total volatile organic compound (TVOC) concentration and differential pressure.

Kombi-LWEU uses LoRaWAN for communication with the cloud.
